

As part of our ongoing work to support the health and wellbeing of all staff at this time, we have worked in partnership with staff-side to produce a short survey. It aims not only to provide us with a snapshot of your knowledge and understanding of all the processes in place to support you to work safely at this time, but also to draw attention to any areas that might need further attention.

Please [click here](#) to access the survey, which should only take a few minutes to complete.
